

#NoHotPaws

It's dangerous to leave pets in hot vehicles.

Dogs have a limited ability to sweat and even a short time in a hot car can be life-threatening. Similar to a glass mason jar being left out in the sun, the temperature inside a car can be as much as 20° degrees hotter than it is outside. Draw a picture in the mason jar below to show how an animal might feel in a hot car for a chance to win a prize. Prizes include two gift packs and a free week of summer camp. Visit kwsphumane.ca/nohotpaws to submit a photo of your drawing. Contest ends June 30.
